

Testimonial

We have been working with Amala Consulting on our company's NIH grant application since December 2016.

We would like to take this opportunity to thank Amala for the stellar support the company has provided us in preparing our grant application. We could not be happier with Amala's guidance, professionalism and meticulous reviews of the documents. Taking us through the maze of paper work was a feat in itself. We counted a total of 18 docs we have prepared together!

Amala provided us with superior quality consulting. We appreciate the opportunity and look forward to working together in the future.

Sincerely,

Dr. Maggie Stys
